Management's Responsibility

To the Chief and Council and Members of Shawanaga First Nation:

The accompanying consolidated financial statements of Shawanaga First Nation are the responsibility of management and have been approved by the Chief and Council.

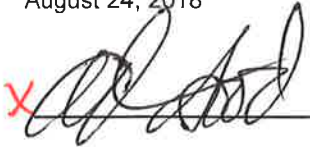

Management is responsible for the preparation and presentation of the accompanying consolidated financial statements, including responsibility for significant accounting judgments and estimates in accordance with Canadian public sector accounting standards. This responsibility includes selecting appropriate accounting principles and methods, and making decisions affecting the measurement of transactions in which objective judgment is required.

In discharging its responsibilities for the integrity and fairness of the consolidated financial statements, management designs and maintains the necessary accounting systems and related internal controls to provide reasonable assurance that transactions are authorized, assets are safeguarded and financial records are properly maintained to provide reliable information for the preparation of consolidated financial statements.

The Shawanaga First Nation Council is responsible for overseeing management in the performance of its financial reporting responsibilities, and for approving the consolidated financial statements. The Council fulfils these responsibilities by reviewing the financial information prepared by management and discussing relevant matters with management and external auditors. The Council is also responsible for recommending the appointment of the Nation's external auditors.

MNP LLP is appointed by the Chief and Council and Members to audit the consolidated financial statements and report directly to them; their report follows. The external auditors have full and free access to, and meet periodically and separately with, both the Chief and Council and management to discuss their audit findings.

Independent Auditors' Report

To the Chief and Council and Members of Shawanaga First Nation:

We have audited the accompanying consolidated financial statements of Shawanaga First Nation, which comprise the consolidated statement of financial position as at March 31, 2018, and the consolidated statements of operations and accumulated surplus, changes in net financial assets and cash flows and related schedules for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with Canadian public sector accounting standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Qualified Opinion

The First Nation has investments in partnerships which participate in Feed-in-Tariff (FIT) hydro-electric projects and which are accounted for under the modified equity method. These partnerships are carried at NIL on the statement of financial position as at March 31, 2018 and the First Nation's share of distributions from these partnerships totalling \$nil (2017 - \$15,873) is reported in the First Nation's operations for the year then ended. We were unable to obtain sufficient appropriate audit evidence about the carrying amount of the First Nation's investments in these partnerships as at March 31, 2018 and the First Nation's share of partnership income for the year because partnership financial statements prepared by the partners were not available as at August 27, 2018. Consequently we were unable to determine whether any adjustments to those amounts were necessary.

Opinion

In our opinion, except for the effects of the matter described in the Basis for Qualified Opinion paragraph, the consolidated financial statements present fairly, in all material respects, the financial position of Shawanaga First Nation as at March 31, 2018 and the results of its operations, changes in net financial assets and its cash flows for the year then ended in accordance with Canadian public sector accounting standards.

Shawanaga First Nation
Notes to the Consolidated Financial Statements
For the year ended March 31, 2018

1. Nature of operations

The Shawanaga First Nation ("the First Nation") is a local government entity whose principal purpose is to provide for the well-being of its band members. The First Nation operates under the Indian Act.

2. Change in accounting policies

Effective April 1, 2017, the First Nation adopted the recommendations relating to the following sections, as set out in the CPA Canadian Public Sector Accounting Handbook:

- PS 2200 Related Party Disclosures
- PS 3420 Inter-entity Transactions
- PS 3210 Assets
- PS 3320 Contingent Assets
- PS 3380 Contractual Rights

Pursuant to the recommendations, the changes were applied prospectively, and prior periods have not been restated. There was no material impact on the consolidated financial statements of adopting the new sections.

3. Significant accounting policies

These consolidated financial statements are the representations of management, prepared in accordance with Canadian public sector accounting standards and including the following significant accounting policies:

Reporting entities consolidated

The financial statements consolidate the financial activities of all entities and departments comprising the First Nation reporting entity, except for First Nation business entities. Trusts administered on behalf of third parties by Shawanaga First Nation are excluded from the First Nation reporting entity.

The First Nation has consolidated the assets, liabilities, revenue and expenses of the following organizations:

- Shawanaga Retail GP Inc.
- Shawanaga Retail LP

Inter-organizational transactions and balances between these organizations are eliminated.

Shawanaga First Nation business entities, owned or controlled by the First Nation but not dependent on the First Nation for their continuing operations, are included in the financial statements using the modified equity method. Under the modified equity method, the equity method of accounting is modified only to the extent that the business entity accounting principles are not adjusted to conform to those of the First Nation. Thus, the First Nation's investment in these entities is recorded at acquisition cost and is increased for the proportionate share of post acquisition earnings and decreased by post acquisition losses and distributions received. Entities accounted for by the modified equity basis include:

- Shwe Miikaan LP

Basis of presentation

Sources of revenue and expenses are recorded using the accrual basis of accounting. The accrual basis of accounting recognizes revenue as it becomes available and measurable; expenses are recognized as they are incurred and measurable as a result of the receipt of goods or services and the creation of a legal obligation to pay.

Use of estimates

The preparation of consolidated financial statements in conformity with Canadian public sector accounting standards requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenue and expenses during the reporting period.

3. Significant accounting policies *(Continued from previous page)*

Accounts receivable are stated after evaluation as to their collectability and an appropriate allowance for doubtful accounts is provided where considered necessary.

Management has estimated the value of the inventory based upon their assessment of the realizable amount less selling costs. Provisions are made for slow moving and obsolete inventory.

Amortization is based on the estimated useful lives of tangible capital assets.

Accrued liabilities are estimated based on historical charges for unbilled goods and services at year-end.

Payable to funding agencies is based on anticipated repayment requirements; however, actual repayments will be determined upon funding agencies' review of the financial statements.

These estimates and assumptions are reviewed periodically and, as adjustments become necessary they are reported in earnings in the year in which they become known.

Asset classification

Assets are classified as either financial or non-financial. Financial assets are assets that could be used to discharge existing liabilities or finance future operations. Non-financial assets are acquired, constructed or developed assets that do not normally provide resources to discharge existing liabilities but are employed to deliver government services, may be consumed in normal operations and are not for resale in the normal course of operations. Non-financial assets include tangible capital assets and prepaid expenses.

Net financial assets

The First Nation's financial statements are presented so as to highlight net financial assets as the measurement of financial position. The net financial assets of the First Nation is determined by its financial assets less its liabilities. Net financial assets combined with non-financial assets comprise a second indicator of financial position, accumulated surplus.

Cash and cash equivalents

Cash and cash equivalent include short-term deposits with original maturities of three months or less, balances with banks and cash on hand. Cash subject to restrictions that prevent its use for current purposes is included in restricted cash.

Inventory

Inventory is measured at the lower of cost and net realizable value, with cost being determined on the first-in, first-out basis. Cost includes all acquisition costs incurred in bringing inventory to its present location and condition. Net realizable value is the estimated selling price in the ordinary course of business less any applicable selling expenses.

Long-term loans receivable

Long-term loans receivable are recorded at principal amounts, less any allowance for anticipated losses and unamortized loan discount plus accrued interest. Interest revenue is recorded on the accrual basis. Loan and administration fees are amortized over the term of the loan.

Allowance for loan impairment

The First Nation maintains an allowance for loan impairment that reduces the carrying value of loans to their estimated realizable amount. The allowance is increased by a charge for loan impairment, which is charged to income, and reduced by write-offs, net of recoveries. Interest revenue accrual is discontinued when collectability of either the loan's principal or interest is not reasonably assured.

A specific allowance is established on an individual loan basis, to reduce the carrying values to estimated realizable amounts. Estimated realizable values are determined by discounting the expected future cash flows at the effective interest rate inherent in the loans. When the amount and timing of future cash flows cannot be reliably established, estimated realizable values are determined by reference to market prices for the loans or their underlying security value.

3. Significant accounting policies *(Continued from previous page)*

In addition, a non-specific allowance may be established where, in management's opinion, it is required to absorb losses inherent in the loan portfolio, for which a specific allowance cannot yet be determined. A non-specific provision is established when evidence of impairment exists within groups of loans but is not sufficient to allow identification of individually impaired loans. Impairment is estimated based on historical credit loss experience, known portfolio risks and current economic conditions and trends.

Tangible capital assets

Tangible capital assets are initially recorded at cost which includes amounts that are directly attributable to acquisition, construction, development or betterment of the asset. The cost, less residual value, of the tangible capital assets, excluding land and landfill sites, are amortized on a straight-line basis over their estimated useful lives.

Contributions of tangible capital assets

Tangible capital assets received as contributions are recorded at their fair value at the date of receipt and also are recorded as revenue.

Amortization

Tangible capital assets are amortized annually using the following methods at rates intended to amortize the cost of the assets over their estimated useful lives:

	<i>Method</i>	<i>Rate</i>
Water and distribution systems	straight-line	40 years
Buildings	straight-line	25 years
Roads	straight-line	20 years
Solar system	straight-line	12 years
Equipment	straight-line	5 years
Equipment under capital lease	straight-line	5 years
Machinery and vehicles	straight-line	5 years
Boats and canoes	straight-line	5 years

Long-term debt and capital lease obligations

Long-term financing received to fund tangible capital asset purchases is recognized in the period the financing is acquired and recorded as an increase in long-term debt.

Repayments of long-term financing are recognized as a decrease in long-term debt.

A lease that transfers substantially all of the benefits and risks of ownership is classified as a capital lease. At the inception of a capital lease, an asset and a payment obligation is recorded at the present value of the minimum lease payments. Assets under capital leases are amortized on the straight-line basis, over their estimated useful lives. All other leases are accounted for as operating leases and rental payments are expensed as incurred.

Long-lived assets

Long-lived assets consist of tangible capital assets. Long-lived assets held for use are measured and amortized as described in the applicable accounting policies.

The First Nation performs impairment testing on long-lived assets held for use whenever events or changes in circumstances indicate that the carrying amount of an asset, or group of assets, may not be recoverable. The carrying amount of a long-lived asset is not recoverable if the carrying amount exceeds the sum of the undiscounted future cash flows from its use and disposal. Impairment is measured as the amount by which the asset's carrying amount exceeds its fair value. Fair value is measured using quoted market prices. Any impairment is included in surplus for the year.

Revenue recognition

Funding

Revenue is recognized as it becomes receivable under the terms of the applicable funding agreements. Funding received under funding arrangements that relate to a subsequent fiscal period are reflected as deferred revenue on the statement of financial position in the year of receipt.

3. **Significant accounting policies** *(Continued from previous page)*

Other

Gas and variety store sales are recognized when goods are sold. Interest and other income are recognized when earned. Rental revenue is recognized when earned throughout the rental period and when collection is reasonably assured.

Government transfers

The First Nation recognizes a government transfer as revenue when the transfer is authorized and all eligibility criteria, if any, have been met. A government transfer with stipulations giving rise to an obligation that meets the definition of a liability is recognized as liability. In such circumstances, the First Nation recognized revenues as the liability is settled. Transfers of non-depreciable assets are recognized in revenue when received or receivable.

Segments

The First Nation conducts its business through eight of reportable segments:

Capital
Community Operations
First Nation Administration
Economic Development
Education
Health Services
Social Services
Other

These operating segments are established by senior management to facilitate the achievement of the First Nation's long-term objectives to aid in resource allocation decisions, and to assess operational performance.

For each reported segment, revenue and expenses represent both amounts that are directly attributable to the segment and amounts that are allocated on a reasonable basis. Therefore, certain allocation methodologies are employed in the preparation of segmented financial information. Administration fees have been apportioned based on a percentage of budgeted revenue, where permitted by the funder.

The accounting policies used in these segments are consistent with those followed in the preparation of the consolidated financial statements as disclosed in Note 2 the *Significant accounting policies*.

Funds held in Ottawa Trust Fund

Funds held in trust on behalf of First Nation members by the Government of Canada in the Ottawa Trust Fund are reported on the statement of financial position with an offsetting amount in accumulated operating surplus. Trust moneys consist of:

- Capital trust moneys derived from the sale of surrendered lands or other First Nation tangible capital assets, which can include land sales, timber sales, oil and gas royalties and gravel sales; and
- Revenue trust moneys generated primarily through land leasing transactions or interest earned on deposits held in trust.

Retirement benefits

The First Nation's employee future benefit programs consist of a defined contribution pension plan.

First Nation contributions to the defined contribution plan are expensed as incurred.

4. Restricted cash

Restricted cash of the Ottawa Trust Fund relates to funds on deposit with Indigenous and Northern Affairs Canada generated from land that is leased to non-native parties and interest earned on the related lease rentals.

Restricted cash of the Ontario First Nations Limited Partnership ("OFNLP") Fund relates to funds received that are unspent at year-end.

Restricted cash of the Replacement Reserve consists of term deposits and bank account balances and is required to be maintained under the terms of an agreement with Canada Mortgage and Housing Corporation for the purpose of replacing items of a capital nature.

5. Investments in Nation business entities and partnerships *(Continued from previous page)*

The Shwe Miikaan Limited Partnership has a December year end. As at March 31, 2018, operations of this investment has been accounted for using the modified equity method.

1582787 Ontario Ltd. was inactive during the year and currently has no assets or liabilities.

The Feed-in-Tariff partnerships are Nation business partnerships that should be accounted using the modified equity method. These investments are carried at NIL since the partnerships' financial reporting have not been prepared by the partners' and thus the Nation's proportion of equity or income could not be ascertained. Distributions from these partnerships have been reported as income.

Summary financial information for each First Nation business partnership or enterprise, accounted for using the modified equity method, for their respective year-end is as follows:

16. Contractual rights

Henvey Inlet Wind Project:

On November 2, 2017, the First Nation entered into an agreement with Henvey Inlet Wind GP Inc. ("HIW") to lease reserve lands required to accommodate a power transmission line. The agreement stipulates a \$1,000,000 lump sum payment payable at the start of project construction and a \$200,000 annual lease paid quarterly at the start of commercial operations. The lease term is twenty years with an option to renew for an additional twenty years subject to a three year intervening period to allow HIW to secure a new power purchase agreement.

Ontario First Nations Limited Partnership:

Commencing with the 2012 fiscal year and in each fiscal year thereafter during the initial and renewal terms of the agreement between the Province of Ontario and Ontario First Nations Limited Partnership ("OFNLP"), the Province of Ontario shall pay to OFNLP 12 monthly payments equal to one-twelfth of 1.7% of the aggregate provincial gross gaming revenues. OFNLP then distributes to the First Nation its share of these revenues according to a formula used for that purpose. The use of these funds, according to agreements, is restricted to community development, health, education, cultural development and economic development.

The First Nation holds one unit in the Ontario First Nations Limited Partnership and a share in a related company Ontario First Nations General Partner Inc. - the carrying values of which are nominal and are therefore not recorded in these consolidated financial statements.

Ontario First Nations Sovereign Wealth Limited Partnership:

On December 28, 2017, the Ontario First Nations Sovereign Wealth Limited Partnership ("Sovereign Wealth LP") entered into an amended and restated limited partnership agreement whereby the Organization and 128 other participating First Nations were concurrently admitted. Sovereign Wealth LP distributes to the First Nation its proportionate share of the revenue generated in the partnership.

The First Nation holds a unit representing 0.4729% interest in the Ontario First Nations Sovereign Wealth LP, and a share in a related company Ontario First Nations Asset Management General Partner Corp.; the carrying values of which are nominal and are therefore not recorded in these financial statements.

17. Segments

Shawanaga First Nation is a diversified governmental institution that provides a wide range of services to its band members, including capital, community operations, economic development, education, First Nation administration, health services, social services and a retail operation. For management reporting purposes of the First Nation's operations and activities are organized and reported by program. Programs were created for the purpose of recording specific activities to attain certain objectives in accordance with special regulations, restrictions or limitations. Services are provided by functional areas and their activities are reported in these programs. Certain functional areas that have been separately disclosed in the segmented information, along with the services they provide, are as follows:

Capital

This segment reports the major capital projects and activities occurring in the First Nation during the year.

Community Operations

This segment includes housing, road maintenance, water, solid waste management, and fire protection services.

Economic Development

This segment reports the economic development activities of the First Nation, including programs such as fish harvesting, bush clearing, as well as youth employment and other training programs.

17. Segments *(Continued from previous page)*

Education

This segment includes general and special education. This segment also includes service contracts with provincially funded area school boards which are entered into for secondary students. In addition, this segment includes the reimbursement of tuition costs and living and other allowances to students who are attending post-secondary institutions.

First Nation Administration

This segment includes finance band support and membership and the governance activities of Chief and Council. This program oversees the delivery of all government services including ensuring that adequate policies and procedures are in place to safeguard assets and to properly report financial activities. In addition, this area includes the government activities of Chief and Council and band support and membership.

Health Services

This segment reports the diverse range of services providing the First Nation directed towards well-being of members of the First Nation including the delivery of programming such as early childhood development, nutrition, diabetes, mental health, healthy babies, victim services, home and community care and many other programs designed to enhance the health of its members.

Social Services

The segment includes the delivery of a variety of programming including Ontario Works, employment support services and national child benefit programs.

Other

The segment includes all the other programs provided by the First Nation that are ancillary to the core services of the First Nation. Some of the more significant programs include the library and annual Pow Wow.

18. Economic dependence

Shawanaga First Nation receives a significant portion of its revenue from Indigenous and Northern Affairs Canada (INAC) and Health Canada (HC-FNIH) as a result of Treaties entered into with the Government of Canada. These treaties are administered by INAC and HC-FNIH under the terms and conditions of the Indian Act. The ability of the First Nation to continue operations is dependent upon the Government of Canada's continued financial commitments as guaranteed by these treaties.
